

FREDERICKSBURG SEWER & WATER AUTHORITY
INDUSTRIAL PRETREATMENT PROGRAM PERMIT

No. _____

In accordance with the provisions of Resolution No. _____ – Industrial Pretreatment Program (Resolution) of the Fredericksburg Sewer & Water Authority (Authority),

Fredericksburg, PA 17026

is hereby authorized to discharge sanitary sewer wastes from a facility at a location identified above to the Authority's wastewater collection, conveyance and treatment system according to the discharge limitations, monitoring and reporting requirements and other conditions set forth herein.

The following terms and conditions shall apply:

GENERAL TERMS AND CONDITIONS

1. Permittee shall notify Authority of any revisions, modifications and/or expansions to facilities, activities or plant processes on Permittee's premises, before they occur, in a timely fashion to allow Authority review.
2. Permittee shall notify Authority of any slug or accidental discharges as defined by the Resolution, orally, within twenty-four (24) hours of discharge. Permittee shall provide a written report within five (5) days following discharge describing the discharge and measures to prevent future occurrences as detailed in the Resolution.
3. Permittee shall be required to abide by all terms and conditions of the Resolution and to abide by all terms and conditions described in this Permit.
4. Failure to comply with the terms or conditions of this Permit shall be grounds for enforcement action as found in Section 5. Enforcement of the Resolution, which could include, but not be limited to, Permit suspension, revocation or modification, termination of discharge, or denial of Permit renewal application.
5. Fees incurred by the Authority to carry out the requirements contained in the Resolution and in this Permit shall be chargeable to and paid by the Permittee including but not limited to Authority engineer and Authority attorney fees.
6. This Permit shall not be assigned or transferred to another User without prior written consent of the Authority.

7. Permittee shall allow the Authority and/or their authorized representative access at all reasonable times to all parts of the premises for the purpose of inspection, sampling, records examination, and any other duties necessary to carry out the Resolution and the terms and conditions of this Permit.
8. The Authority and/or their authorized representative shall have the right to set up on the Permittee's premises, such devices as are necessary to conduct sampling, inspection, compliance monitoring and/or flow metering.
9. Authority reserves the right to revise the terms and conditions of this Permit at any time as deemed appropriate by Authority to ensure compliance with the Resolution and all applicable laws, rules and regulations.
10. The Authority reserves the right to suspend the wastewater treatment service provided to the Permittee and/or this Permit, if in the opinion of the Authority, the actual or threatened discharge from Permittee's premises presents or may present an imminent or substantial endangerment to the health and welfare of the public, the environment, causes interference to the Publicly Owned Treatment Works (POTW), or violates any condition of the Authority's NPDES Permit.
11. The Authority may at any time request that the Permittee install a flow meter to continuously monitor flow if deemed appropriate by the Authority.

SPECIFIC TERMS AND CONDITIONS

12. The daily discharge from Permittee's facilities shall not exceed _____ gallons per day (gpd).
13. The maximum hourly discharge from Permittee's facilities shall not exceed _____ gallons (_____ gpd x 2.5//24 hrs/d).
14. Authority reserves the right to require Permittee to install flow equalization facilities subject to Authority's approval to regulate rate of discharge into Authority's sanitary sewer system for failure to comply with the above maximum allowable hourly discharge rate.
15. Permittee shall be required to sample for wastewater constituents and pollutants identified in the Resolution _____ times per year. Cost of obtaining said samples shall be at Permittee's expense. Sampling procedures shall follow guidelines as detailed in the Resolution. Samples shall be analyzed by a laboratory certified by the Pennsylvania Department of Environmental Protection (PADEP). Laboratory analyzing samples shall submit results directly to Authority within thirty (30) calendar following collection of sample but no later than June 30 of each calendar year.
16. Authority reserves the right to take additional samples when, in the opinion of the Authority, such additional samples are warranted for whatever reason. The cost of said samples shall be at Permittee's expense.
17. Permittee shall be required to pump out any grease trap located on the premises on an annual basis. Permittee shall submit copy of invoice or some other type of manifest

verifying that the grease trap was cleaned within thirty (30) days after the work has been completed.

18. Permittee acknowledges the use and storage of various chemicals on-site. Permittee shall be required to notify Authority of any and all chemical spills or leaks occurring on the Permittee's premises.

19. Compliance with this Permit does not relieve the Permittee of responsibility for compliance with all applicable Federal and State Pretreatment Standards, including those which become effective during the term of this Permit.
